Definitions for use when completing Attachment A - Proposal Summary

Authorized Organization Representatives: Since the management structure of each applicant's organization is unique, the following are the general guidelines and definitions to use when completing the Proposal Summary:

- 1. The Primary Contact is generally the person responsible for the overall grant administration and compliance with grant guidelines; could be the designated Project Director, organization's Executive Director, CEO, etc. Having the Director sign off on the financial and project progress reports would be appropriate, but may not be practical in some organizations. The Director should be kept up to date on both the financial and project progress since this is the person VDSS holds accountable for the grant.
- 2. The Project Administrator is responsible for the day-to-day management and implementation of the grant project; this person may actually run the project or may supervise a project assistant or coordinator who is doing the hands-on work. If the Project Administrator prepares the Quarterly Progress Report, then the Director should be the one to review and sign the report. If a project assistant or coordinator prepares the report, then it would be appropriate to have the Project Administrator (or Director) review and sign the report.
- 3. **Finance Officer** is the organization's designated financial officer or grants officer who is responsible for tracking grant expenses and ensuring financial compliance with the grant guidelines. Generally, the designated Finance Officer should be the one to approve the "Quarterly Finance Report and Reimbursement Invoice" even if the preparation of the report is delegated to another staff member within the Finance Office. The Finance Report form requests the name and phone number of the person preparing the report in case there are questions about the expenses or supporting documentation submitted.
